
Mailboxes Approved for Island Estates by the DRC

April 2018

In order to maintain the appearance of Island Estates as a premier residential community, standards have been adopted for the installation and upkeep of mailboxes. These are a very visible statement to owners, visitors and prospective residents of the quality and style of the community. We wish to convey that Island Estates is upscale and, while allowing a variety of practical and individual choices, maintain a subtle but harmonious appearance throughout the neighborhood. Limited colors (white, bronze or black) are chosen to complement the homes in the Island Estates neighborhood. Excessive ornamentation should be avoided.

Mailbox Standards:

1. For new construction, all mailboxes and stands shall be of a design selected from the list of mailbox styles and suppliers currently in the DRC-approved Island Estates list.
2. The mailboxes shall include no more than the surname, house number and street name of the resident and shall be located at the street front of each homesite, as prescribed by the United States Postal Service. No paper peel and stick-on numbers or letters.
3. The Builder shall initially provide and install a mailbox as approved by the DRC, and the homeowner shall maintain the DRC approved mailbox.
4. The mailbox shall be maintained in a clean and attractive manner, free of rust and discoloration. It should be repainted, whenever necessary, in one of the approved colors, or replaced with a new mailbox selected from most current DCR approved list.
